Respiration Physiology 114 (1998) 313–314

RESPIRATION PHYSIOLOGY

Contents of volume 114

No. 1, October 1998

SPECIAL ISSUE:
Brain and Breathing – From Cellular Mechanisms to Clinical Implications

GUEST EDITOR:
Marianne E. Schläfke (Bochum, Germany)

Editorial 1

Frontiers review
J.G. Widdicombe (UK) Afferent receptors in the airways and cough 5

Research articles
J.W. Severinghaus (USA) Hans Loeschcke, Robert Mitchell and the medullary CO_2 chemoreceptors: a brief historical review 17
W. Ehleben, B. Bölling, E. Merten, T. Porwol, A.R. Strohmaier and H. Acker (Germany) Cytochromes and oxygen radicals as putative members of the oxygen sensing pathway 25
T. Schäfer (Germany) Variability of vigilance and ventilation: studies on the control of respiration during sleep 37
P.L. Parmeggiani, A. Azzaroni and M. Calasso (Italy) A pontine–hypothalamic temperature difference correlated with cutaneous and respiratory heat loss 49
N.R. Prabhakar (USA) Endogenous carbon monoxide in control of respiration 57
C.M. Spengler, R.B. Banzett, D.M. Systrom, D.C. Shannon and S.A. Shea (USA) Respiratory sensations during heavy exercise in subjects without respiratory chemosensitivity 65
W.A. De Backer (Belgium) Methods and clinical significance of studying chemical drives 75
Z. Tomori, R. Beňačka and V. Donič (Slovakia) Mechanisms and clinicophysiological implications of the sniff- and gasp-like aspiration reflex 83

No. 2, November 1998

Research articles
E. H. Schlenker (USA) Aspartic acid in the arcuate nucleus attenuates the depressive effects of naloxone on ventilation 99
D.R. Corfield, K. Murphy and A. Guz (UK) Does the motor cortical control of the diaphragm 'bypass' the brain stem respiratory centres in man? 109
W.M. St.-John (USA) Alterations in respiratory neuronal activities in the medullary 'pre-Bötzinger' region in hypocapnia 119
K.J. Sullivan, M. Fournier and M.I. Lewis (USA) Respiratory work in elastase treated hamsters 133
H. Mover-Lev, R. Priner-Barenholtz, A. Ar and J. Sade' (Israel) Quantitative analysis of gas losses and gains in the middle ear 143
L. Pesce, S. Tristano, E. Friedman, A. Comellas, H. Marcano and R. Sanchez de León (Venezuela) Effect of Fenoterol on PAF-induced lung edema in isolated and perfused rabbit lungs 153
T.C. Resta, T.C. Sanders, M.R. Eichinger, M.R. Crowley and B.R. Walker (USA) Segmental vasodilatory effectiveness of inhaled NO in lungs from chronically hypoxic rats 161

O. Canbolat, J. Fandrey and W. Jelkmann (Germany) Effects of modulators of the production and degradation of hydrogen peroxide on erythropoietin synthesis 175
J. Verbraecken, M. Willemen, W. De Cock, P. Van de Heyning and W. De Backer (Belgium) Relationship between CO_2 drive and characteristics of apneas in obstructive and central sleep apnea 185

Short communication
A. Artlich, T. Busch, K. Lewandowski, T. Schaible, K.J. Falke and L. Gortner (Sweden, Germany) Exhaled nitric oxide in preterm infants 195

No. 3, December 1998

Frontiers review
E.M. Horn and T.G. Waldrop (USA) Suprapontine control of respiration 201

Research articles
N. Simakajornboon, G.R. Graff, J.E. Torres and D. Gozal (USA) Modulation of hypoxic ventilatory response by systemic platelet-activating factor receptor antagonist in the rat 213
B.W. Scheuermann and J.M. Kowalchuk (Canada) Attenuated respiratory compensation during rapidly incremented ramp exercise 227
S.G. Reid and W.K. Milsom (Canada) Respiratory pattern formation in the isolated bullfrog (*Rana catesbeiana*) brainstem-spinal cord 239
E. D'Angelo, E. Prandi, M. Tavola and F.M. Robatto (Italy) Assessment of respiratory system viscoelasticity in spontaneously breathing rabbits 257
S. Bergmann, R. Siekmeier, C. Mix and W. Jaross (Germany) Even moderate cigarette smoking influences the pattern of circulating monocytes and the concentration of sICAM-1 269
M. Yamamoto, M. Yamaya, S. Shimura, M. Satoh, T. Sasaki and K. Shirato (Japan) Laminin inhibits Cl^--secretion across canine tracheal epithelium 277
G.D. Giraud, B. Nejadnik, B. Kimberly and W.E. Holden (USA) Physical characteristics and gas composition of nasal air affect nasal nitric oxide release 285
D.R. Henderson, S.M. Johnson and H.D. Prange (USA) CO_2 and heat have different effects on directed ventilation behavior of grasshoppers *Melanoplus differentialis* 297
